A background image showing a microscopic view of plant cells, likely from a leaf, with clear cell walls and some internal structures. The image is in shades of blue and cyan. A solid teal rectangle is overlaid on the left side of the image, containing the text.

*Erasmus
project Croatia*

2022

*Parlog Edira Alexandra-from
Romania*

Monday 16th:

-at the 10 a.m we saw the school and traditional dances and songs,after this we planted a G.O.A.L tree.

-we had 4 lessons,after lessons we had lunch in the school canteen.

-at the 3 p.m until 5 p.m we visited centar of Zagreb on foot and after this we had free evening

*Tuesday 17th:
-we visited the oldest and
the largest national park in
the Republic of Croatia
called The Plitvice Lakes.*

Wednesday 18th:

-we had a trip in the highest peak of Medvednica Nature Park near Zagreb.

- after we visited to the Zrinski Mine a Middle Ages silver mine, is it the only mine in Croatia open to the public.

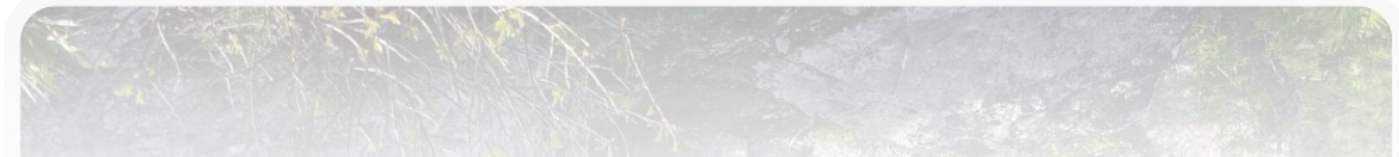

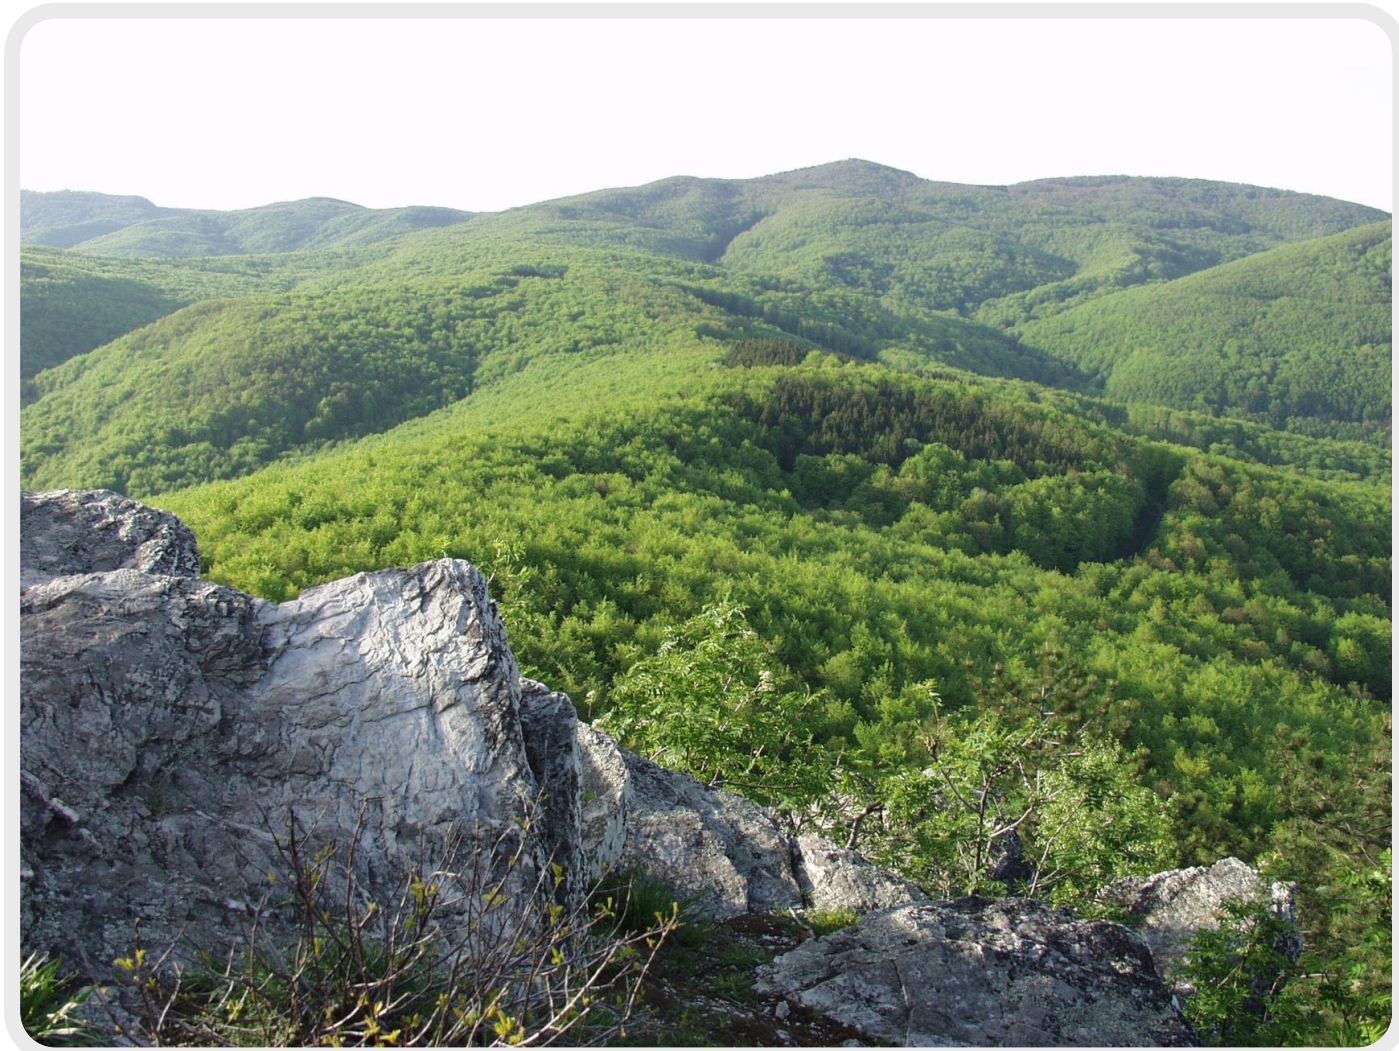

-and we had sports activities in nature.

Thursday 19th:

-we visited Papuk Nature Park which is one of the most beautiful nature parks in Croatia and the first Croatian geopark under UNESCO protection.

-its area of 336 square kilometres, is characterized by geological and biological diversity.

Friday 20th:

-we went to the school again for made presentation with we visited in this week.

-after we finished the presentation we went in the school yard for a challenge dance in the gym called Jerusalema.

*Thank you for this
exchange of
experience! 😊*
